

What is claimed is:

1. A single sheet of foldable material cut and scored to define a container blank, comprising:

a bottom panel

5 a side panel connected with the bottom panel;

an end panel connected with the bottom panel;

an end flap connected with said end panel opposite said bottom panel, said end flap being connected with said end panel by spaced apart fold;

a corner first panel connected with said side panel;

10 a corner second panel connected with said corner first panel opposite said end panel; and,

a corner third panel connected with said corner second panel opposite said corner first panel.

15 2. The blank of claim 1, wherein the sheet of foldable material is at least one of a containerboard, paperboard or corrugated material.

3. The blank of claim 2, wherein the corrugated material is at least one of a single wall, double wall or triple wall material.

20

4. The blank of claim 1, further comprising a lift cutout formed in said second side panel and said second divider panel.

25 5. The blank of claim 1, further comprising a handhold cutout in said end panel.

6. The blank of claim 1, further comprising a corner lock slot formed in said bottom panel and said side panel.

30 7. The blank of claim 1, further comprising corner notches formed in said corner first panel and said corner second panel.

8. The blank of claim 1, wherein the length of end flap is longer than said pair of spaced apart fold lines.

5 9. A single sheet of foldable material cut and scored to define a container, comprising:

a bottom panel;  
a side panel connected with said bottom panel;  
an end panel connected with said bottom panel;  
a corner third panel adjacent said side panel;  
10 a corner first panel adjacent said end panel; and,  
an end flap adjacent the corner second panel.

15 10. The container of claim 9, wherein the sheet of foldable material is at least one of a containerboard, paperboard or corrugated material.

11. The container of claim 10, wherein the corrugated material is at least one of a single wall, double wall or triple wall material.

20 12. The container of claim 9, further comprising a handhold cutout in said end panel.

13. The container of claim 9, further comprising a corner lock slot formed in said bottom panel and said side panel.

25 14. The container of claim 9, further comprising corner notches formed in said corner first panel and said corner second panel.
